

C.L-J-008-JK

自动高频焊接系列-焊夹口

功能

自动送银线，自动测温，自动红外线感应火力，夹具采用导轨装置，焊接精度高，火力强而稳定，易上手操作，无须经验即可生产，焊点光洁亮丽、牢固稳定

优点

- 自动送银线
- 自动测温度
- 自动红外线感应火力
- 高精度夹具装置
- 人性化操控
- 焊接变化灵活

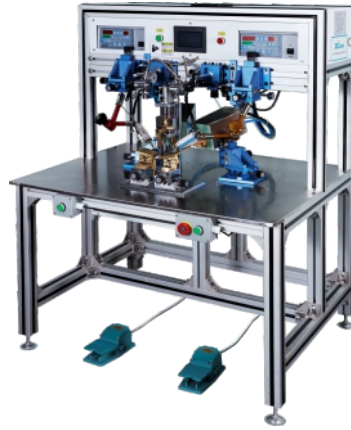

Automatic high-frequency welding series-solder rim lock

Functions

Automatic silver line loading, automatic temperature measuring, automatic infrared-ray firepower inducing, using the guide rail facility in clamp, high welding precision, strong and stable firepower, all of which ensure the easy operation and production without experience. The welding spot is smooth and bright as well as solid and stable

Advantages

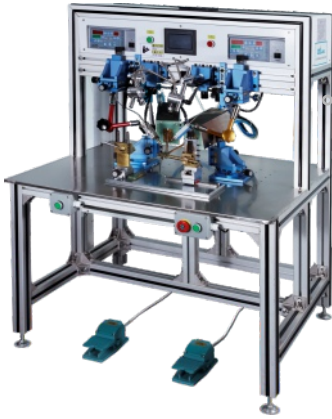

- Automatic silver line loading
- Automatic temperature measuring
- Automatic infrared-ray firepower inducing
- High-precision clamp device
- Humanized control
- Various and flexible welding

C.L-J-008-ZL

自动高频焊接系列-焊中梁

Automatic high frequency welding series - solder bridge

C.L-J-008-YD

自动高频焊接系列-焊烟斗

Automatic high frequency welding series -solder nose pad

C.L-J-008-ZT

自动高频焊接系列-焊庄头

Automatic high frequency welding series - solder end_piece

技术参数 / Technical Parameters

性能指标项 Performance index	标准值 standard value	工作电压 Working voltage	220V/50HZ
焊接功率 Welding power	3KW	温度控制 Temperature control	进口红外线 Imported infrared ray
操作系统 Operating system	PLC	气源压力 Air pressure	0.6MPA
夹具运动部位 Movable parts of the clamp	台湾上银导轨 Taiwan guide rail of silver loading	外型尺寸 External dimension	900*700*1500
床体重量 Bed body weight	155KG
